HISTORY OF HOBART

The city of Hobart was founded in 1847 by George Earle. This 109 year old community surrounds Lake George which was named for George Earle. He dammed Deep River to make the lake and a head of water to turn the stone that ground grain. Indians traded here by the mill. The Old Grist Mill was one of Hobart's historical landmarks until it burned to embers on February 15, 1953. At one time before the dam was built a river boat ran from East Gary through Hobart and on to Crown Point.

The town was located on the Chicago-New York stage coach route, and used extensively by the Forty-Niners bent for the Gold Rush in California.

In 1858, Hobart became the first railroad center in Lake County. By 1870, the population was 500 and in addition to being the railroad center, had the finest hotel and the County's only art gallery. Brick making was the largest industry. The first bank was established in Hobart in 1884. This was the second bank in the county.

Part of the present High School was built in 1877. There have been several additions to the original structure with plans for construction of a new Senior High Building. There are 6 public schools (including Junior and Senior High School) and two parochial schools.

The first church established in Hobart was the Methodist in 1869; followed in 1872 by the Unitarian, in 1873 by the Trinity Lutheran, and St. Bridget in 1875. Other denominations followed later.

Hobart's first Town Board was organized in 1889 and Hobart became an incorporated city in 1921 when the population had grown to 3500. In the next thirty years there was a gain of about 6800 in population which brought the population in 1950 to 10, 244 and advanced Hobart to the status of a 5th Class City. Since 1950 the population has advanced to over 15, 000 (1956 census 15, 423) and it is predicted that by 1960 Hobart will be a city of over 20, 000. Subdivisions have lured families from the Calument industrial cities to the quiet, wooded, clean, and prosperous community of Hobart.

The Assessed Equalized Valuation is $13, 169, 585. 00. The bonded debt general obligation is $73, 000. and revenue bonds $55, 000. 00.

Hobart has two newspapers: The Hobart Herald and the Hobart Gazette. It is also serviced by the Gary Post Tribune of Gary.

Telephones in service in Hobart number 4, 000.

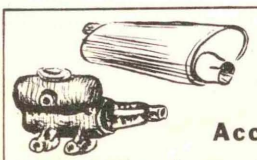

The Elgin Joliet and Eastern and the Pennsylvania railroads service Hobart and highways leading into Hobart are U. S. #6 and State Routes #51 and #130 with eight major highways within ten miles of Hobart: U. S. #12, #20, and #30 and State Routes #53, #55, #41, #49 and the new East-West Toll Road and the new proposed North-South Toll Road.

Among Hobart's transportation facilities is the Cole Sky Ranch Airport.

The Hobart Public Library was built in 1915. The library was established as a Carnegie and township library, and a branch of the Gary Public Library. Hobart has no Library Board but Mrs. Carl Pleak from Hobart serves on the Lake County Library Board. The Library houses 7, 000 volumes.

Industries of Hobart include:

Earlwin Furniture Mfg., Co., Indiana Street--manufacturer of tables, furniture, etc.
Natco Corporation, 201 North Lake Park Ave.--manufacturer of tile
American Cladding and Fabricating Engineers, Inc., 661 Main Street--manufacturers of lawnmowers and metal processing.

ALPHABETICAL STREET GUIDE

In the following list the named streets are arranged in alphabetical order followed by the numbered streets in numerical order with the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the names of the occupants followed by symbol Δ and the telephone number.

The symbol Ⓗ indicates that we have received information during the canvas that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes, no responsibility for errors can be assumed, nor can the publisher furnish further information than that shown.
